

Evercore to Host Inaugural Digital Finance Summit, October 8, 2025

September 24, 2025

NEW YORK--(BUSINESS WIRE)--Sep. 24, 2025-- Evercore will host its inaugural Digital Finance Summit on October 8, 2025, in New York City. The Summit, hosted by Evercore ISI senior managing director and fundamental research analyst Adam Frisch, will explore how the stablecoin and blockchain ecosystems will be leveraged to drive the next waves of disruption across several areas of the financial industry. We will offer a wholistic view from top private companies and innovators, investors, and regulatory experts to explore the rapidly evolving digital finance landscape and its implications for capital allocation.

Evercore ISI Director of Research Marc Harris said, "This is a terrific opportunity for the industry to come together to discuss recent trends shaping digital finance. This Summit is structured to help market participants understand not just where we are today, but where the next wave of innovation and investment will lead."

"Through a series of panel discussions, fireside chats, and one-on-one and group meetings with private companies, VC investors, industry and regulatory experts, the Summit will provide a platform for meaningful dialogue on the opportunities and challenges shaping digital finance – specifically focusing on emerging stablecoin and blockchain offerings in the consumer and commercial/B2B markets," said Adam Frisch. "Our aim is to serve as a bridge between the companies at the forefront of innovation and how they will drive tectonic shifts in multiple areas over the next several years."

Attendees will gain access to expert insights on emerging technologies, market opportunities, and regulatory developments, while engaging directly with senior executives and decision-makers driving the future of financial services.

This is an invite-only event. Institutional investors may contact their Evercore ISI salesperson for additional details.
