HLTH and Evercore ISI Partner for 2nd Year to Host Innovative Therapeutic Leaders
Evercore to host program featuring leading industry executives at HLTH VRTL on October 16, 2020

New York, September 15, 2020 – HLTH, the leading platform bringing together the health ecosystem, and Evercore (NYSE: EVR) announced today they will collaborate for the second consecutive year to host a dedicated program on Digital Therapeutics at HLTH VRTL 2020, taking place virtually October 12-16th.

The program, titled “Digging into Digital Therapeutics: A New Dimension in Treatment,” will be held on October 16 from 11am-2:30pm. It will include five panels with leading industry executives who will cover topics including clinical adoption, pharma partnerships, working with payors and the impact COVID-19 has had on accelerating regulatory development and access to digital therapies.

“Digital Therapeutics brings a new dimension to patient care within an industry that has undergone significant transformation over the past year. 2020 has brought not only COVID-induced changes to the practice of medicine, but also FDA approvals, and greater provider and patient interest in these innovative treatments,” said Elizabeth Anderson, Evercore ISI’s Healthcare Technology & Distribution analyst. “We are thrilled to partner again with HLTH and for the opportunity to share updates from this quickly-evolving sector with a wider audience.”

“We’re excited for the opportunity to partner with Evercore ISI again for HLTH VRTL this year. Now more than ever, this is a unique opportunity to learn how industry leaders are bringing their expertise and community of innovators to the discussion on creating health’s future,” said Jonathan Weiner, Founder, Chairman, and CEO of HLTH.
