Basis of Presentation – The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with the instructions to Form 10-Q. As permitted by the rules and regulations of the United States Securities and Exchange Commission, the unaudited condensed consolidated financial statements contain certain condensed financial information and exclude certain footnote disclosures normally included in audited consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The accompanying condensed consolidated financial statements are unaudited and are prepared in accordance with U.S. GAAP. In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, including normal recurring accruals, necessary to fairly present the accompanying unaudited condensed consolidated financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2021. The Company reviews factors, including the rights of the equity holders and obligations of equity holders to absorb losses or receive expected residual returns, to determine if the investment is a VIE. In evaluating whether the Company is the primary beneficiary, the Company evaluates its economic interests in the entity held either directly or indirectly by the Company. The consolidation analysis is generally performed qualitatively. This analysis, which requires judgment, is performed at each reporting date.

Evercore LP is a VIE and the Company is the primary beneficiary. Specifically, the Company has the majority economic interest in Evercore LP and has decision making authority that significantly affects the economic performance of the entity while the limited partners have no kick-out or substantive participating rights. The assets and liabilities of Evercore LP represent substantially all of the consolidated assets and liabilities of the Company with the exception of U.S. corporate taxes and related items, which are presented on the Company's (Parent Company Only) Condensed Statements of Financial Condition

Under Accounting Standards Codification ("ASC") 606, "Revenue from Contracts with Customers" ("ASC 606"), revenue is recognized when all material conditions for completion have been met and it is probable that a significant revenue reversal will not occur in a future period.

The Company recognized revenue of \$6,079 and \$16,584 on the Unaudited Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2022, respectively, and \$13,759 and \$21,835 for the three and nine months ended September 30, 2021, respectively, that was initially included in deferred revenue within Other Current Liabilities on the Company's Unaudited Condensed Consolidated Statements of Financial Condition.

(amounts in thousands, except per share amounts, unless otherwise noted)

The Company has concluded that Glisco Capital Partners II, Glisco Capital Partners III and Glisco Manager Holdings LP are VIEs and that the Company is not the primary beneficiary of these VIEs. The Company's assessment of the primary beneficiary of these entities included assessing which parties have the power to significantly impact the economic performance of these entities and the obligation to absorb losses, which could be potentially significant to the entities, or the right to receive benefits from the entities that could be potentially significant. Neither the Company nor its related parties will have the ability to make decisions that significantly impact the economic performance of these entities. Further, as a limited partner in these entities, the Company does not possess substantive participating rights. The Company had assets of \$3,107 and \$3,408 included in its Unaudited Condensed Consolidated Statements of Financial Condition at September 30, 2022 and December 31, 2021, respectively, related to these unconsolidated VIEs, representing the carrying value of the Company's investments in the entities. The Company's maximum exposure to loss as of September 30, 2022 and December 31, 2021 was \$5,395 and \$5,715, respectively, which represents the carrying value of the Company's investments in these VIEs, as well as any unfunded commitments to the current and future funds.

Investment in Trilantic Capital Partners

During the third quarter of 2021, consistent with the Company's investment strategy, the Company decided to wind down its investment relationship with Trilantic. Accordingly, the Company wrote-off the remaining carrying value of its investment in Trilantic Capital Partners as of September 30, 2021, as well as certain amounts allocated to fund investments exceeding net asset value at September 30, 2021. As a result, the Company recorded an aggregate charge of \$8,554 within Special Charges, including Business Realignment Costs, for the three and nine months ended September 30, 2021. See above in "*Investments in Private Equity*" for further information.

Other Investments

In certain instances, the Company receives equity securities in private companies in exchange for advisory services. These investments, which had a balance of \$557 and \$676 as of September 30, 2022 and December 31, 2021, respectively, are accounted for at their cost minus impairment, if any, plus or minus changes resulting from observable price changes.

Following the Glisco transaction in 2016, the Company recorded an investment in Glisco Manager Holdings LP representing the fair value of the deferred consideration resulting from this transaction. This investment is accounted for at its cost minus impairment, if any, plus or minus changes resulting from observable price changes. The Company amortizes the balance of its investment as distributions are received related to the deferred consideration. This investment was fully amortized as of September 30, 2022 and had a balance of \$221 as of December 31, 2021.

Note 8 – Leases

Operating Leases – The Company leases office space under non-cancelable lease agreements, which expire on various dates through 2035. The Company reflects lease expense over the lease terms on a straight-line basis. The lease terms include options to extend the lease when it is reasonably certain that the Company will exercise that option. Occupancy lease agreements, in addition to base rentals, generally are subject to escalation provisions based on certain costs incurred by the landlord. The Company does not have any leases with variable lease payments. Occupancy and Equipment Rental on the Unaudited Condensed Consolidated Statements of Operations includes operating lease cost for office space of \$13,148 and \$38,757 for the three and nine months ended September 30, 2022, respectively, and \$12,563 and \$37,063 for the three and nine months ended September 30, 2021, respectively, and variable lease cost, which principally include costs for real estate taxes, common area maintenance and other operating expenses, of \$1,781 and \$5,425 for the three and nine months ended September 30, 2022, respectively, and \$1,502 and \$5,120 for the three and nine months ended September 30, 2021, respectively.

In conjunction with the lease of office space, the Company has entered into letters of credit in the amount of \$5,621 and \$5,616 as of September 30, 2022 and December 31, 2021, respectively, which are secured by cash that is included in Other Assets on the Unaudited Condensed Consolidated Statements of Financial Condition.

The Company has entered into various operating leases for the use of office equipment (primarily computers, printers, copiers and other information technology related equipment). Occupancy and Equipment Rental on the Unaudited Condensed Consolidated Statements of Operations includes operating lease cost for office equipment of \$1,205 and \$3,706 for the three and nine months ended September 30, 2022, respectively, and \$1,332 and \$3,983 for the three and nine months ended September 30, 2021, respectively.

The Company uses its secured incremental borrowing rate to determine the present value of its right-of-use assets and lease liabilities. The determination of an appropriate incremental borrowing rate requires significant assumptions and judgment. The Company's incremental borrowing rate was calculated based on the Company's recent debt issuances and current market conditions. The Company scales the rates appropriately depending on the life of the leases.

The Company incurred net operating cash outflows of \$44,718 and \$31,714 for the nine months ended September 30, 2022 and 2021, respectively, related to its operating leases, which was net of cash received from lease incentives of \$867 and \$8,924 for the nine months ended September 30, 2022 and 2021, respectively.

The additional future payments under these arrangements are \$230,552 as of September 30, 2022.

Note 9 – Fair Value Measurements

ASC 820, "Fair Value Measurements and Disclosures" ("ASC 820") establishes a hierarchical disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily-available active quoted prices, or for which fair value can be measured from actively

EVERCORE INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share amounts, unless otherwise noted)

quoted prices, generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 – Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments included in Level 1 include listed equities, listed derivatives and treasury bills. As required by ASC 820, the Company does not adjust the quoted price for these investments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

Level 2 – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Periodically, the Company holds investments in corporate bonds, municipal bonds and other debt securities, the estimated fair values of which are based on prices provided by external pricing services.

Level 3 – Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation.

The following table presents the categorization of investments and certain other financial assets measured at fair value on a recurring basis as of September 30, 2022 and December 31, 2021:

	September 30, 2022

(1) Includes \$3,000 of treasury bills and notes classified within Cash and Cash Equivalents on the Unaudited Condensed Consolidated Statement of Financial Condition as of December 31, 2021.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The carrying amount and estimated fair value of the Company's financial instrument assets and liabilities, which are not measured at fair value on the Unaudited Condensed Consolidated Statements of Financial Condition, are listed in the tables below.

On December 31, 2021, the Company purchased, at fair value, all of the outstanding Class R Interests of Private Capital Advisory L.P. from employees of the RECA business for \$54,297. Consideration for this transaction included the payment of \$6,000 of cash in 2021, \$27,710 of cash during the first quarter of 2022, and contingent cash consideration which will be settled in early 2024. The Company settled \$1,083 of the contingent consideration at fair value, which is included within Other Current Liabilities on the Company's Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2022 and is expected to be paid during the fourth quarter of 2022. The fair value of the remaining contingent consideration is \$7,442 and \$20,587 as of September 30, 2022 and December 31, 2021, respectively, and is included within Other Long-term Liabilities on the Company's Unaudited Condensed Consolidated Statement of Financial Condition. In conjunction with this transaction, the Company will also issue two separate payments in early 2023 and 2024, contingent on continued employment with the Company, and accordingly, will be treated as compensation expense for accounting purposes in the periods earned. These payments will also be dependent on the RECA business achieving certain revenue performance targets.

(a) The Company has outstanding Class A and E LP Units, Class I limited partnership units of Evercore LP ("Class I LP Units") and Class K limited partnership units of Evercore LP ("Class K LP Units"), which give the holders the right to receive Class A Shares upon exchange on a one-for-one basis. During the three and nine months ended September 30, 2022 and 2021, the Class A, E, I and K LP Units were antidilutive and consequently the effect of their exchange into Class A Shares has been excluded from the calculation of diluted net income per share attributable to Evercore Inc. common shareholders. The units that would have been included in the denominator of the computation of diluted net income per share attributable to Evercore Inc. common shareholders if the effect would have been dilutive were 2,650 and 3,078 for the three and nine months ended September 30, 2022, respectively, and 4,840 and 4,871 for the three and nine months ended September 30, 2021, respectively. The adjustment to the numerator, diluted net income attributable to Class A common shareholders, if the effect would have been dilutive, would have been \$6,123 and \$32,853 for the three and nine months ended September 30, 2022, respectively, and \$19,925 and \$54,096 for the three and nine months ended September 30, 2021, respectively. In computing this adjustment, the Company assumes that all Class A, E, I and K LP Units are converted into Class A Shares, that all earnings attributable to those shares are attributed to Evercore Inc. and that the Company is subject to the statutory tax rates of a C-Corporation under a conventional corporate tax structure in the U.S. at

prevailing corporate tax rates. The Company does not anticipate that the Class A, E, I and K LP Units will result in a dilutive computation in future periods.

- (b) The Company previously had outstanding Class I-P units of Evercore LP ("Class I-P Units") which were contingently exchangeable into Class I LP Units, and ultimately Class A Shares, and has outstanding Class K-P units of Evercore LP ("Class K-P Units") which are contingently exchangeable into Class K LP Units, and ultimately Class A Shares, as they are subject to certain performance thresholds being achieved. On March 1, 2022, all of the Class I-P Units converted to Class I LP Units. See Note 14 for further information. For the purposes of calculating diluted net income per share attributable to Evercore Inc. common shareholders, the Company's Class I-P Units and Class K-P Units are included in diluted weighted average Class A Shares outstanding as of the beginning of the period in which all necessary performance conditions have been satisfied. If all necessary performance conditions have not been satisfied by the end of the period, the number of shares that are included in diluted weighted average Class A Shares outstanding is based on the number of shares that would be issuable if the end of the reporting period were the end of the performance period.

The shares of Class B common stock have no right to receive dividends or a distribution on liquidation or winding up of the Company. The shares of Class B common stock do not share in the earnings of the Company and no earnings are allocable to such class. Accordingly, basic and diluted net income per share of Class B common stock have not been presented.

Note 14 – Share-Based and Other Deferred Compensation

LP Units

Class I-P Units – In November 2016, the Company awarded 400 Class I-P Units in conjunction with the appointment of the Chief Executive Officer (then Executive Chairman). These Class I-P Units converted into 400 Class I LP Units (which are exchangeable on a one-for-one basis to Class A Shares), upon the achievement of certain market and service conditions on March 1, 2022. Compensation expense related to this award was \$753 for the nine months ended September 30, 2022 and \$1,130 and \$3,495 for the three and nine months ended September 30, 2021, respectively.

Class K-P Units – In November 2017, the Company awarded 64 Class K-P Units to an employee of the Company. These Class K-P Units converted into 80 Class K LP Units (which are exchangeable on a one-for-one basis to Class A Shares), upon the achievement of certain defined benchmark results relating to the employee's business and continued service through December 31, 2021.

In June 2019, the Company awarded 220 Class K-P Units to an employee of the Company. These Class K-P Units convert into a number of Class K LP Units (which are exchangeable on a one-for-one basis to Class A Shares), contingent and based upon the achievement of certain defined benchmark results relating to the employee's business and continued service through February 4, 2023 for the first tranche, which consists of 120 Class K-P Units, and February 4, 2028 for the second tranche, which consists of 100 Class K-P Units.

In December 2021, the Company awarded 400 Class K-P Units to certain employees of the Company. These Class K-P Units convert into a number of Class K LP Units (which are exchangeable on a one-for-one basis to Class A Shares), contingent and based upon the achievement of certain market conditions, defined benchmark results and continued service through December 31, 2025. As this award contains market, performance and service conditions, the expense for this award will be recognized over the service period of the award and will reflect the fair value of the underlying units as determined at the award's grant date, taking into account the probable outcome of the market condition being achieved, as well as the probable outcome of the performance condition.

These Class K-P Units in the aggregate may convert into a maximum of 1,180 Class K LP Units, contingent upon the achievement of certain defined benchmarks and continued service, as described above. The Company determined the grant date fair value of these awards probable to vest as of September 30, 2022 to be \$97,717, related to 912 Class K LP Units which were probable of achievement, and recognizes expense for these units over the respective service periods. Aggregate compensation expense related to the Class K-P Units was \$5,403 and \$17,179 for the three and nine months ended September 30, 2022, respectively, and \$1,816 and \$5,557 for the three and nine months ended September 30, 2021, respectively.

In October 2022, the Company's Board of Directors approved the issuance of 60 Class K-P Units to an employee of the Company. These Class K-P Units convert into a number of Class K LP Units (which are exchangeable on a one-for-one basis to Class A Shares), contingent and based upon the achievement of certain market conditions, defined benchmark results and continued service through June 30, 2027. As this award contains market, performance and service conditions, the expense for

this award will be recognized over the service period of the award and will reflect the fair value of the underlying units as determined at the award's grant date, taking into account the probable outcome of the market condition being achieved, as well as the probable outcome of the performance condition.

Class L Interests – In April 2021, the Company's Board of Directors approved the issuance of Class L Interests in Evercore LP ("Class L Interests") to certain of the named executive officers of the Company, pursuant to which the named executive officers received a discretionary distribution of profits from Evercore LP, which was paid in the first quarter of 2022. Distributions pursuant to these interests were made in lieu of any cash incentive compensation payments which may otherwise have been made to the named executive officers of the Company in respect of their service for 2021. Following the distribution, these Class L Interests were cancelled pursuant to their terms.

In January 2022, the Company issued Class L Interests to certain of the named executive officers of the Company, pursuant to which the named executive officers may receive a discretionary distribution of profits from Evercore LP, to be paid in the first quarter of 2023. The Company records expense related to these interests as part of its accrual for incentive compensation within Employee Compensation and Benefits on the Unaudited Condensed Consolidated Statements of Operations.

Stock Incentive Plan

During 2020, the Company's stockholders approved the Amended and Restated 2016 Evercore Inc. Stock Incentive Plan (the "Amended 2016 Plan"). During the second quarter of 2022, the Company's stockholders approved the Second Amended and Restated 2016 Evercore Inc. Stock Incentive Plan (the "Second Amended 2016 Plan"), which amended the Amended 2016 Plan. The Second Amended 2016 Plan, among other things, authorizes an additional 6,500 shares of the Company's Class A Shares. The Second Amended 2016 Plan permits the Company to grant to certain employees, directors and consultants incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, RSUs and other awards based on the Company's Class A Shares. The Company intends to use newly-issued Class A Shares to satisfy any awards under the Second Amended 2016 Plan and its predecessor plan. Class A Shares underlying any award granted under the Second Amended 2016 Plan that expire, terminate or are canceled or satisfied for any reason without being settled in stock again become available for awards under the plan. The total shares available to be granted in the future under the Second Amended 2016 Plan was 7,772 as of September 30, 2022.

The Company also grants, at its discretion, dividend equivalents, in the form of unvested RSU awards, or deferred cash dividends, concurrently with the payment of dividends to the holders of Class A Shares, on all unvested RSU grants. The dividend equivalents have the same vesting and delivery terms as the underlying RSU award.

The Company estimates forfeitures in the aggregate compensation cost to be amortized over the requisite service period of its awards. The Company periodically monitors its estimated forfeiture rate and adjusts its assumptions to the actual occurrence of forfeited awards. A change in estimated forfeitures is recognized through a cumulative adjustment in the period of the change.

Equity Grants

During the nine months ended September 30, 2022, pursuant to the above Stock Incentive Plans, the Company granted employees 2,952 RSUs that are Service-based Awards. Periodically, the Company provides new and existing employees with cash payments in the form of loans and/or other cash awards which are subject to ratable vesting terms with service requirements ranging from one to five years and in certain circumstances, subject to the achievement of performance requirements. Generally, these awards, based on the terms, include a requirement of either full or partial repayment by the employee if the service or other requirements of the agreements with the Company are not achieved. In circumstances where the employee meets the Company's minimum credit standards, the Company amortizes these awards to compensation expense over the relevant service period, which is generally the period they are subject to forfeiture. Lines of Credit – On June 24, 2016, Evercore Partners Services East L.L.C. ("East") entered into a loan agreement with PNC Bank, National Association ("PNC") for a revolving credit facility in an aggregate principal amount of up to \$30,000, to be used for working capital and other corporate activities. This facility is secured by East's accounts receivable and the proceeds therefrom, as well as certain assets of EGL, including certain of EGL's accounts receivable. In addition, the agreement contains certain reporting covenants, as well as certain debt covenants that prohibit East and the Company from incurring other indebtedness, subject to specified exceptions. The Company and its consolidated subsidiaries were in compliance with these covenants as of September 30, 2022. East amended this facility on October 29, 2021 such that, among other things, the interest rate provisions were LIBOR (or an applicable benchmark replacement) plus 150 basis points and the maturity date was extended to October 28, 2023 (as amended, the "Existing PNC Facility"). LIBOR (or an applicable benchmark replacement) plus 180 basis points and the maturity date was extended to October 28, 2023. East is only permitted to borrow under this facility if there is no undrawn availability under the Existing PNC Facility and must repay indebtedness under this facility prior to repaying indebtedness under the Existing PNC Facility. There were no drawings under this facility at September 30, 2022.

On October 29, 2021, EGL entered into a subordinated revolving credit facility with PNC in an aggregate principal amount of up to \$75,000, to be used as needed in support of capital requirements from time to time of EGL. This facility is unsecured and is guaranteed by Evercore LP and other affiliates, pursuant to a guaranty agreement, which provides for certain reporting requirements and debt covenants consistent with the Existing PNC Facility. Drawings under this facility will bear interest at LIBOR (or an applicable benchmark replacement) plus 180 basis points and the maturity date will be October 28, 2023, unless prepayment is otherwise approved earlier by FINRA. There were no drawings under this facility at September 30, 2022. EGL amended this facility on October 31, 2022 such that, among other things, the interest rate provisions were Daily SOFR plus 191 basis points and the maturity date was extended to October 27, 2024.

In addition, EGL's clearing broker provides temporary funding for the settlement of securities transactions.

Other Commitments – The Company has a commitment for contingent consideration related to the purchase of the outstanding Class R Interests of Private Capital Advisory L.P. from employees of the RECA business in 2021. The Company's consideration for this transaction included contingent cash consideration which will be settled in 2024. The Company settled \$1,083 of the contingent consideration at fair value, which is included within Other Current Liabilities on the Company's Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2022 and is expected to be paid during the fourth quarter of 2022. The remaining contingent consideration has a fair value of \$7,442 as of September 30, 2022, and is included within Other Long-term Liabilities on the Unaudited Condensed Consolidated Statement of Financial Condition. The amount of contingent consideration to be paid is dependent on the RECA business achieving certain revenue performance targets. See Note 12 for further information.

The Company enters into commitments to pay contingent consideration related to certain of its acquisitions. The Company paid \$270 of its commitment for contingent consideration related to its acquisition of Kuna & Co, KG during the nine months ended September 30, 2021. The contingent consideration was fully paid as of September 30, 2021.

Restricted Cash – The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within the statements of financial condition that sum to the total of amounts shown in the Unaudited Condensed Consolidated Statements of Cash Flows:

	September 30,	
	2022	2021
Cash and Cash Equivalents	\$ 473,066	\$ 478,819
Restricted Cash included in Other Assets	9,105	9,056
Total Cash, Cash Equivalents and Restricted Cash shown in the Statement of Cash Flows	\$ 482,171	\$ 487,875

Restricted Cash included in Other Assets on the Unaudited Condensed Consolidated Statements of Financial Condition primarily represents letters of credit which are secured by cash as collateral for the lease of office space and security deposits for certain equipment. The restrictions will lapse when the leases end.

Contingencies

In the normal course of business, from time to time, the Company and its affiliates are involved in judicial or regulatory proceedings, arbitration or mediation concerning matters arising in connection with the conduct of its businesses, including contractual and employment matters. In addition, United Kingdom, German, Hong Kong, Singapore, Canadian, Dubai and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer, investment advisor, or its directors, officers or employees. In view of the inherent difficulty of determining whether any loss in connection with such matters is probable and whether the amount of such loss can be reasonably estimated, particularly in cases where claimants seek substantial or indeterminate damages or where

investigations and proceedings are in the early stages, the Company cannot estimate the amount of such loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that it is not currently party to any material pending proceedings, individually or in the aggregate, the resolution of which would have a material effect on the Company. Provisions for losses are established in accordance with ASC 450, "Contingencies" ("ASC 450") when warranted. Once established, such provisions are adjusted when there is more information available or when an event occurs requiring a change.

Note 16 – Regulatory Authorities

EGL is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Under the Alternative Net Capital Requirement, EGL's minimum net capital requirement is \$250. EGL's regulatory net capital as of September 30, 2022 and December 31, 2021 was \$388,286 and \$660,032, respectively, which exceeded the minimum net capital requirement by \$388,036 and \$659,782, respectively.

Certain other non-U.S. subsidiaries are subject to various securities and banking regulations and capital adequacy requirements promulgated by the regulatory and exchange authorities of the countries in which they operate. These subsidiaries are in excess of their local capital adequacy requirements at September 30, 2022.

Evercore Trust Company, N.A. ("ETC"), which is limited to fiduciary activities, is regulated by the Office of the Comptroller of the Currency ("OCC") and is a member bank of the Federal Reserve System. The Company, Evercore LP and ETC are subject to written agreements with the OCC that, among other things, require the Company and Evercore LP to maintain at least \$5,000 in Tier 1 capital in ETC (or such other amount as the OCC may require) and maintain liquid assets in ETC in an amount at least equal to the greater of \$3,500 or 180 days coverage of ETC's operating expenses. The Company was in compliance with the aforementioned agreements as of September 30, 2022.

Note 17 – Income Taxes

The Company's Provision for Income Taxes was \$40,790 and \$114,134 for the three and nine months ended September 30, 2022, respectively, and \$59,712 and \$137,871 for the three and nine months ended September 30, 2021, respectively. The effective tax rate was 30.8% and 23.2% for the three and nine months ended September 30, 2022, respectively, and 24.0% and 21.0% for the three and nine months ended September 30, 2021, respectively. The effective tax rate reflects net excess tax benefits associated with the appreciation in the Company's share price upon vesting of employee share-based awards above the original grant price of \$19,657 and \$17,422 being recognized in the Company's Provision for Income Taxes for the nine months ended September 30, 2022 and 2021, respectively, and resulted in a reduction in the effective tax rate of 4.0 and 2.7 percentage points for the nine months ended September 30, 2022 and 2021, respectively. The effective tax rate for 2022 and 2021 also reflects the effect of certain nondeductible expenses, including expenses related to Class I-P and K-P Units, as well as the noncontrolling interest associated with LP Units and other adjustments.

Additionally, the Company is subject to the income tax effects associated with the global intangible low-taxed income ("GILTI") provisions in the period incurred. For the three and nine months ended September 30, 2022 and 2021, no additional income tax expense associated with the GILTI provisions has been recognized and it is not expected to be material to the Company's effective tax rate for the year.

The Company recorded a decrease in deferred tax assets of \$485 associated with changes in Unrealized Gain (Loss) on Securities and Investments and an increase of \$14,722 associated with changes in Foreign Currency Translation Adjustment Gain (Loss), in Accumulated Other Comprehensive Income (Loss) for the nine months ended September 30, 2022. The Company recorded an increase in deferred tax assets of \$111 associated with changes in Unrealized Gain (Loss) on Securities and Investments and an increase of \$1,345 associated with changes in Foreign Currency Translation Adjustment Gain (Loss), in Accumulated Other Comprehensive Income (Loss) for the nine months ended September 30, 2021.

The Company classifies interest relating to tax matters and tax penalties as a component of income tax expense in its Unaudited Condensed Consolidated Statements of Operations. As of September 30, 2022, there were \$254 of unrecognized tax benefits that, if recognized, \$206 would affect the effective tax rate. Related to the unrecognized tax benefits, the Company accrued interest and penalties of \$10 and \$1, respectively, during the three months ended September 30, 2022.

- Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount, square footage and other performance and time-based factors.
- Segment assets are based on those directly associated with each segment, or for certain assets shared across segments, those assets are allocated based on the most relevant measures applicable, including headcount and other factors.

See Note 7 for further information.)
- A gain on the sale of a portion of the Company's interests in ABS in the first quarter of 2022. See Note 7 for further information
- Gains (losses) resulting from foreign currency fluctuations
- Realized and unrealized gains and losses on interests in private equity funds which are not managed by the Company

- *Acquisition and Transition Costs* – Includes costs incurred in connection with acquisitions, divestitures and other ongoing business development initiatives, primarily comprised of professional fees for legal and other services.

All statements other than statements of historical fact are forward-looking statements and, based on various underlying assumptions and expectations, are subject to known and unknown risks, uncertainties and assumptions and may include projections of our future financial performance based on our growth strategies and anticipated trends in Evercore's business. We believe these factors include, but are not limited to, those described under "Risk Factors" discussed in the Annual Report on Form 10-K for the year ended December 31, 2021. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included or incorporated by reference in this report. Key Financial Measures

Revenue

Total revenues reflect revenues from our Investment Banking and Investment Management business segments that include fees for services, transaction-related client reimbursements and other revenue. Net revenues reflect total revenues less interest expense.

Investment Banking. Our Investment Banking business earns fees from its clients for providing advice on mergers, acquisitions, divestitures, capital raising, leveraged buyouts, restructurings, activism and defense and similar corporate finance matters, and from underwriting and private placement activities, as well as commissions, fees and principal revenues from research and its sales and trading activities. The amount and timing of the fees paid vary by the type of engagement or services provided. In general, advisory fees are paid at the time we sign an engagement letter, during the course of the engagement or when an engagement is completed. The majority of our investment banking revenue consists of advisory fees for which realizations are dependent on the successful completion of transactions. A transaction can fail to be completed for many reasons which are outside of our control, including failure of parties to agree upon final terms with the counterparty, to secure necessary board or shareholder approvals, to secure necessary financing or to achieve necessary regulatory approvals, or due to adverse market conditions. In the case of bankruptcy engagements, fees are subject to court approval. Underwriting fees are recognized when the offering has been deemed to be completed and placement fees are generally recognized at the time of the client's acceptance of capital or capital commitments. Commissions and Related Revenue includes commissions, which are recorded on a trade-date basis or, in the case of payments under commission sharing arrangements, on the date earned. Commissions and

Related Revenue also includes subscription fees for the sales of research, as well as revenues from principal transactions primarily executed on a riskless principal basis. Cash received before the subscription period ends is initially recorded as deferred revenue (a contract liability) and recognized as revenue over the remaining subscription period.

Revenue trends in our advisory business generally are correlated to the volume of merger and acquisition ("M&A") activity, restructuring activity, which tends to be counter-cyclical to M&A, and capital advisory activity. Demand for these capabilities can vary in any given year or quarter for a number of reasons. For example, changes in our market share or the ability of our clients to close certain large transactions can cause our revenue results to diverge from the level of overall M&A, restructuring or capital advisory activity. Revenue trends in our equities business are correlated to market volumes, which generally decrease in periods of low market volatility or unfavorable market or economic conditions. See "Liquidity and Capital Resources" below for further information.

Investment Management. Our Investment Management business includes operations related to the Wealth Management business and interests in private equity funds which we do not manage. Revenue sources primarily include management fees, fiduciary fees and gains (or losses) on our investments.

Management fees for third party clients generally represent a percentage of assets under management ("AUM"). Fiduciary fees, which are generally a function of the size and complexity of each engagement, are individually negotiated. Gains and losses include both realized and unrealized gains and losses on principal investments, including those arising from our equity interest in investment partnerships.

Transaction-Related Client Reimbursements. In our Investment Banking segment, we incur various transaction-related expenditures, such as travel and professional fees, in the course of performing our services. Pursuant to the engagement letters with our advisory clients, these expenditures may be reimbursable. We define these expenses, which are associated with revenue activities earned over time, as transaction-related expenses and record such expenditures as incurred and record revenue when it is determined that clients have an obligation to reimburse us for such transaction-related expenses. Client expense reimbursements are recorded as revenue on the Unaudited Condensed Consolidated Statements of Operations on the later of the date an engagement letter is executed or the date we pay or accrue the expense.

Other Revenue and Interest Expense. Other Revenue includes the following:

- Interest income and income (losses) on investment securities, including our investment funds which are used as an economic hedge against our deferred cash compensation program, certificates of deposit, cash and cash equivalents, long-term accounts receivable and on our debt security investment in G5 (through June 25, 2021, the date G5 repaid its outstanding debentures in full. See Note 7 to our unaudited condensed consolidated financial statements for further information.)
- A gain on the sale of a portion of our interests in ABS in the first quarter of 2022. See Note 7 to our unaudited condensed consolidated financial statements for further information
- Gains (losses) resulting from foreign currency fluctuations
- Realized and unrealized gains and losses on interests in private equity funds which we do not manage
- Adjustments to amounts due pursuant to our tax receivable agreement, subsequent to its initial establishment, related to changes in enacted tax rates

Interest Expense includes interest expense associated with our Notes Payable and lines of credit.

Operating Expenses

Employee Compensation and Benefits Expense. We include all payments for services rendered by our employees, as well as profits interests in our businesses that have been accounted for as compensation, in employee compensation and benefits expense.

We maintain compensation programs, including base salary, cash, deferred cash and equity bonus awards and benefits programs and manage compensation to estimates of competitive levels based on market conditions and performance. Our level of compensation, including deferred compensation, reflects our plan to maintain competitive compensation levels to retain key personnel, and it reflects the impact of newly-hired senior professionals, including related grants of equity awards which are

generally valued at their grant date and recorded in employee compensation and benefits expense over the requisite service period.

Increasing the number of high-caliber, experienced senior level employees is critical to our growth efforts. In our advisory businesses, these hires generally do not begin to generate significant revenue in the year they are hired.

Our annual compensation program includes share-based compensation awards and deferred cash awards as a component of the annual bonus awards for certain employees. These awards, the amount of which is a function of performance and market conditions, are generally subject to annual vesting requirements over a four-year period beginning at the date of grant, which occurs in the first quarter of each year; accordingly, the expense is generally amortized over the stated vesting period, subject to retirement eligibility. With respect to annual awards, our retirement eligibility criteria generally stipulates that an employee is eligible for retirement if the employee has at least five years of continuous service, is at least 55 years of age and has a combined age and years of service of at least 65 years, or, for awards issued in 2019 and after, if an employee has at least 10 years of continuous service and is at least 60 years of age. Retirement eligibility allows for continued vesting of awards after employees depart from the Company, provided they give the minimum advance notice, which is generally six months to one year.

We estimate forfeitures in the aggregate compensation cost to be amortized over the requisite service period of the awards. We periodically monitor our estimated forfeiture rate and adjust our assumptions to the actual occurrence of forfeited awards. A change in estimated forfeitures is recognized through a cumulative adjustment in the period of the change.

In April 2021, our Board of Directors approved the issuance of Class L Interests in Evercore LP to certain of our named executive officers, pursuant to which the named executive officers received a discretionary distribution of profits from Evercore LP, which was paid in the first quarter of 2022. Distributions pursuant to these interests were made in lieu of any cash incentive compensation payments which may otherwise have been made to our named executive officers in respect of their service for 2021. Following the distribution, these Class L Interests were cancelled pursuant to their terms. In January 2022, we issued Class L Interests to certain of our named executive officers, pursuant to which the named executive officers may receive a discretionary distribution of profits from Evercore LP, to be paid in the first quarter of 2023. We record expense related to these distributions in Employee Compensation and Benefits on the Unaudited Condensed Consolidated Statements of Operations and reflect accrued liabilities in Accrued Compensation and Benefits on the Unaudited Condensed Consolidated Statements of Financial Condition.

Our Long-term Incentive Plan provides for incentive compensation awards to Advisory Senior Managing Directors, excluding executive officers, who exceed defined benchmark results over four-year performance periods beginning January 1, 2017 and January 1, 2021. We made cash distributions under the 2017 Long-term Incentive Plan in March 2022 and 2021, respectively, as well as in December 2021, related to the acceleration of certain amounts due in the first quarter of 2022. Remaining amounts are due to be paid, in cash or Class A Shares, at our discretion, in the first quarter of 2023 (for the 2017 Long-term Incentive Plan) and in the first quarter of 2025, 2026 and 2027 (for the 2021 Long-term Incentive Plan), subject to employment at the time of payment. Awards issued under the 2017 Long-term Incentive Plan are subject to retirement eligibility requirements after the performance criteria has been achieved. We periodically assess the probability of the benchmarks being achieved and expense the probable payout over the requisite service period of the award. The performance period for the 2017 Long-term Incentive Plan ended on December 31, 2020.

From time to time, we also grant performance awards to certain individuals which include both performance and service-based vesting requirements and, in certain awards, market based requirements. These include Class I-P and K-P Units issued by Evercore LP. In December 2021, we issued Class K-P Units to certain of our employees. In March 2022, the Class I-P Units converted to Class I LP Units. See Note 14 to our unaudited condensed consolidated financial statements for further information.

In October 2022, our Board of Directors approved the issuance of Class K-P Units to an employee. See Note 14 to our unaudited condensed consolidated financial statements for further information.

We believe that the ratio of Employee Compensation and Benefits Expense to Net Revenues is an important measure to assess the annual cost of compensation and provides a meaningful basis for comparison of compensation and benefits expense between present, historical and future years.

Non-Compensation Expenses. Our other operating expenses include costs for occupancy and equipment rental, professional fees, travel and related expenses, communications and information technology services, depreciation and

amortization, execution, clearing and custody fees and other operating expenses. We refer to all of these expenses as non-compensation expenses.

Other Expenses

Other Expenses include the following:

- *Special Charges, Including Business Realignment Costs* – Includes expenses in 2022 related to charges associated with the prepayment of our Series B Notes during the second quarter, as well as certain professional fees related to the ongoing liquidation of our operations in Mexico. Includes expenses in 2021 related to the write-down of certain assets associated with a legacy private equity investment relationship which, consistent with our investment strategy, we decided to wind down during the third quarter.

Income from Equity Method Investments

Our share of the income (loss) from our equity interests in ABS, Atalanta Sosnoff, Luminis and Seneca Evercore (from July 7, 2021 for Seneca Evercore) are included within Income from Equity Method Investments, as a component of Income Before Income Taxes, on the Unaudited Condensed Consolidated Statements of Operations. See Note 7 to our unaudited condensed consolidated financial statements for further information.

Provision for Income Taxes

We account for income taxes in accordance with ASC 740, "Income Taxes", which requires the recognition of tax benefits or expenses on temporary differences between the financial reporting and tax basis of our assets and liabilities. Excess tax benefits and deficiencies associated with the appreciation or depreciation in our share price upon vesting of employee share-based awards above or below the original grant price are recognized in our Provision for Income Taxes. In addition, net deferred tax assets are impacted by changes to statutory tax rates in the period of enactment.

Noncontrolling Interest

We record noncontrolling interest relating to the ownership interests of certain of our current and former Senior Managing Directors and other officers and their estate planning vehicles in Evercore LP, as well as the portions of our operating subsidiaries not owned by Evercore. Evercore Inc. is the sole general partner of Evercore LP and has a majority economic interest in Evercore LP. As a result, Evercore Inc. consolidates Evercore LP and records a noncontrolling interest for the economic interest in Evercore LP held by the limited partners.

We generally allocate net income or loss to participating noncontrolling interests held at Evercore LP and at the operating entity level, where required, by multiplying the relative ownership interest of the noncontrolling interest holders for the period by the net income or loss of the entity to which the noncontrolling interest relates. In circumstances where the governing documents of the entity to which the noncontrolling interest relates require special allocations of profits or losses to the controlling and noncontrolling interest holders, the net income or loss of these entities is allocated based on these special allocations. See Note 12 to our unaudited condensed consolidated financial statements for further information.

As of September 30, 2022 and 2021, we employed approximately 2,160 and 1,950 people, respectively, worldwide.

Three Months Ended September 30, 2022 versus September 30, 2021

Net Income Attributable to Evercore Inc. was \$82.4 million for the three months ended September 30, 2022, a decrease of \$77.1 million, or 48%, compared to \$159.5 million for the three months ended September 30, 2021. The changes in our operating results during these periods are described below.

Net Revenues were \$576.9 million for the three months ended September 30, 2022, a decrease of \$246.6 million, or 30%, versus Net Revenues of \$823.6 million for the three months ended September 30, 2021. Advisory Fees decreased \$220.1 million, or 31%, Underwriting Fees decreased \$25.7 million, or 47%, and Commissions and Related Revenue increased \$2.4 million, or 5%, compared to the three months ended September 30, 2021. Asset Management and Administration Fees decreased \$1.3 million, or 8%, compared to the three months ended September 30, 2021. See "Business Segments" and "Liquidity and Capital Resources" below for further information.

Other Revenue, Including Interest and Investments, decreased \$2.1 million compared to the three months ended September 30, 2021, primarily reflecting lower performance of our investment funds portfolio due to the overall market decline. The portfolio is used as an economic hedge against our deferred cash compensation program.

Total Operating Expenses were \$446.5 million for the three months ended September 30, 2022, compared to \$569.8 million for the three months ended September 30, 2021, a decrease of \$123.3 million, or 22%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$355.8 million for the three months ended September 30, 2022, a decrease of \$130.7 million, or 27%, versus expense of \$486.5 million for the three months ended September 30, 2021. The decrease in the amount of compensation recognized for the three months ended September 30, 2022 principally reflects a lower accrual for incentive compensation tied to lower revenue, partially offset by higher base salaries and higher amortization of prior period deferred compensation awards. Non-compensation expenses as a component of Operating Expenses were \$90.7 million for the three months ended September 30, 2022, an increase of \$7.4 million, or 9%, versus \$83.3 million for the three months ended September 30, 2021. The increase was primarily driven by an increase in travel and related expenses, as travel began to resume during the fourth quarter of 2021, as well as higher professional fees. Non-Compensation expenses per employee were approximately \$42.3 thousand for the three months ended September 30, 2022, versus \$43.3 thousand for the three months ended September 30, 2021.

Total Other Expenses of \$8.6 million for the three months ended September 30, 2021 included Special Charges, Including Business Realignment Costs, related to the write-down of certain assets associated with a legacy private equity investment relationship which, consistent with our investment strategy, we decided to wind down during the third quarter of 2021.

As a result of the factors noted above, Employee Compensation and Benefits Expense as a percentage of Net Revenues was 61.7% for the three months ended September 30, 2022, compared to 59.1% for the three months ended September 30, 2021.

Income from Equity Method Investments was \$2.0 million for the three months ended September 30, 2022, compared to \$3.7 million for the three months ended September 30, 2021. The decrease was primarily driven by lower income earned by ABS, principally reflecting a decrease in our ownership following the sale of a portion of our interests during the first quarter of 2022. See Note 7 to our unaudited condensed consolidated financial statements for further information.

The provision for income taxes for the three months ended September 30, 2022 was \$40.8 million, which reflected an effective tax rate of 30.8%. The provision for income taxes for the three months ended September 30, 2021 was \$59.7 million, which reflected an effective tax rate of 24.0%. The increase in the effective tax rate principally reflects higher state and local taxes and an increase in U.S. federal taxes related to the decrease in Noncontrolling Interest in Evercore LP.

Net Income Attributable to Noncontrolling Interest was \$9.2 million for the three months ended September 30, 2022 compared to \$29.6 million for the three months ended September 30, 2021. The decrease in Net Income Attributable to Noncontrolling Interest primarily reflects lower income at Evercore LP for the three months ended September 30, 2022, as well as the decrease in noncontrolling ownership interest during the first quarter of 2022. See Note 12 to our unaudited condensed consolidated financial statements for further information.

Nine Months Ended September 30, 2022 versus September 30, 2021

Net Income Attributable to Evercore Inc. was \$336.1 million for the nine months ended September 30, 2022, a decrease of \$108.2 million, or 24%, compared to \$444.3 million for the nine months ended September 30, 2021. The changes in our operating results during these periods are described below.

Net Revenues were \$1.93 billion for the nine months ended September 30, 2022, a decrease of \$243.0 million, or 11%, versus Net Revenues of \$2.17 billion for the nine months ended September 30, 2021. Underwriting Fees decreased \$103.2 million, or 57%, Advisory Fees decreased \$92.0 million, or 5%, and Commissions and Related Revenue increased \$1.6 million, or 1%, compared to the nine months ended September 30, 2021. Asset Management and Administration Fees increased \$0.6 million, or 1%, compared to the nine months ended September 30, 2021. See "Business Segments" below for further information.

Other Revenue, Including Interest and Investments, decreased \$50.6 million compared to the nine months ended September 30, 2021, primarily reflecting a shift from gains of \$15.8 million to losses of \$39.0 million on our investment funds portfolio due to the overall market decline. The decrease was also driven by a \$4.4 million gain on the redemption of the G5 debt security in the second quarter of 2021. This was partially offset by a \$1.3 million gain on the sale of a portion of our

interests in ABS during the first quarter of 2022. See Note 7 to our unaudited condensed consolidated financial statements for further information.

Total Operating Expenses were \$1.44 billion for the nine months ended September 30, 2022, compared to \$1.52 billion for the nine months ended September 30, 2021, a decrease of \$74.6 million, or 5%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$1.17 billion for the nine months ended September 30, 2022, a decrease of \$115.2 million, or 9%, versus expense of \$1.29 billion for the nine months ended September 30, 2021. The decrease in the amount of compensation recognized for the nine months ended September 30, 2022 principally reflects a lower accrual for incentive compensation tied to lower revenue, partially offset by higher base salaries and higher amortization of prior period deferred compensation awards. Non-compensation expenses as a component of Operating Expenses were \$269.7 million for the nine months ended September 30, 2022, an increase of \$40.6 million, or 18%, versus \$229.1 million for the nine months ended September 30, 2021. The increase was primarily driven by an increase in travel and related expenses, as travel began to resume during the fourth quarter of 2021, as well as higher professional fees. Non-Compensation expenses per employee were approximately \$130.8 thousand for the nine months ended September 30, 2022, versus \$122.8 thousand for the nine months ended September 30, 2021.

Total Other Expenses of \$0.5 million for the nine months ended September 30, 2022 included Special Charges, Including Business Realignment Costs, related to charges associated with the prepayment of our Series B Notes during the second quarter, as well as certain professional fees related to the ongoing liquidation of our operations in Mexico. Total Other Expenses of \$8.6 million for the nine months ended September 30, 2021 included Special Charges, Including Business Realignment Costs, related to the write-down of certain assets associated with a legacy private equity investment relationship which, consistent with our investment strategy, we decided to wind down during the third quarter of 2021.

As a result of the factors noted above, Employee Compensation and Benefits Expense as a percentage of Net Revenues was 60.8% for the nine months ended September 30, 2022, compared to 59.3% for the nine months ended September 30, 2021.

Income from Equity Method Investments was \$6.8 million for the nine months ended September 30, 2022, compared to \$10.1 million for the nine months ended September 30, 2021. The decrease was driven by lower income earned by ABS, principally reflecting a decrease in our ownership following the sale of a portion of our interests during the first quarter of 2022. See Note 7 to our unaudited condensed consolidated financial statements for further information.

The provision for income taxes for the nine months ended September 30, 2022 was \$114.1 million, which reflected an effective tax rate of 23.2%. The provision for income taxes for the nine months ended September 30, 2021 was \$137.9 million, which reflected an effective tax rate of 21.0%. The increase in the effective tax rate principally reflects higher state and local taxes and an increase in U.S. federal taxes related to the decrease in Noncontrolling Interest in Evercore LP. The increase was partially offset by a higher net tax benefit associated with the appreciation in our share price upon vesting of employee share-based awards above the original grant price for the nine months ended September 30, 2022.

Net Income Attributable to Noncontrolling Interest was \$42.5 million for the nine months ended September 30, 2022 compared to \$74.3 million for the nine months ended September 30, 2021. The decrease in Net Income Attributable to Noncontrolling Interest reflects lower income at Evercore LP for the nine months ended September 30, 2022, as well as the decrease in noncontrolling ownership interest during the first quarter of 2022. See Note 12 to our unaudited condensed consolidated financial statements for further information.

Our Investment Management segment includes the following:

- Wealth Management – conducted through EWM and ETC. Fee-based revenues from EWM are primarily earned on a percentage of AUM, while ETC primarily earns fees from negotiated trust services.
- Private Equity – conducted through our investment interests in private equity funds. We maintain a limited partner's interest in Glisco II, Glisco III and Glisco IV, as well as Glisco Manager Holdings LP and the general partners of the Glisco Funds. Manager Holdings LP. We are passive investors and do not participate in the management of any Glisco sponsored funds. We are also passive investors in Trilantic IV, Trilantic V and Trilantic VI (through January 1, 2022). In the event the private equity funds perform below certain thresholds, we may be obligated to repay certain carried interest previously distributed. During the third quarter of 2021, consistent with our investment strategy, we decided to wind down our investment relationship with Trilantic. See Note 7 to our unaudited condensed consolidated financial statements for further information.

- We also hold interests in ABS and Atalanta Sosnoff that are accounted for under the equity method of accounting. The results of these investments are included within Income from Equity Method Investments. During the first quarter of 2022, we sold a portion of our interests in ABS. See Note 7 to our unaudited condensed consolidated financial statements for further information.

Assets Under Management

AUM for our Wealth Management business of \$10.0 billion at September 30, 2022 decreased \$2.2 billion, or 18%, compared to \$12.2 billion at December 31, 2021. The amounts of AUM presented in the table below reflect the fair value of assets which we manage on behalf of Wealth Management clients. As defined in ASC 820, valuations performed for Level 1 investments are based on quoted prices obtained from active markets generated by third parties and Level 2 investments are valued through the use of models based on either direct or indirect observable inputs or other valuation methodologies performed by third parties to determine fair value. For both the Level 1 and Level 2 investments, we obtain both active quotes from nationally recognized exchanges and third-party pricing services to determine market or fair value quotes, respectively. For Level 3 investments, pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Wealth Management maintained 72% and 75% of Level 1 investments, 23% and 21% of Level 2 investments and 5% and 4% of Level 3 investments as of September 30, 2022 and December 31, 2021, respectively.

The fees that we receive for providing investment advisory and management services are primarily driven by the level and composition of AUM. Accordingly, client flows, market movements, and changes in our product mix will impact the level of management fees we receive from our Wealth Management business. Fees vary with the type of assets managed and the channel in which they are managed, with higher fees earned on equity assets and alternative investment funds, such as hedge funds and private equity funds, and lower fees earned on fixed income and cash management products. Clients will increase or reduce the aggregate amount of AUM that we manage for a number of reasons, including changes in the level of assets that they have available for investment purposes, their overall asset allocation strategy, our relative performance versus competitors offering similar investment products and the quality of our service. The fees we earn are also impacted by our investment performance, as the appreciation or depreciation in the value of the assets that we manage directly impacts our fees.

The following table summarizes AUM activity for the nine months ended September 30, 2022:

Our Wealth Management business serves individuals, families and related institutions delivering customized investment management, financial planning, and trust and custody services. Investment portfolios are tailored to meet the investment objectives of individual clients and reflect a blend of equity, fixed income and other products. Fees charged to clients reflect the composition of the assets managed and the services provided. Investment performance in the Wealth Management business is measured against appropriate indices based on the composition of AUM, most frequently the S&P 500 and a composite fixed income index principally reflecting BarCap and MSCI indices.

For the nine months ended September 30, 2022, AUM for Wealth Management decreased 18%, primarily reflecting a decrease due to market depreciation. Performance for the nine months ended September 30, 2022 reflected:

- Wealth Management lagged the S&P 500 on a 1-year basis by approximately 4% and outperformed the S&P 500 on a 3-year basis by approximately 1%
- Wealth Management outperformed the fixed income composite on a 1 and 3-year basis by approximately 90 basis points and 10 basis points, respectively
- The S&P 500 and fixed income composite were each down approximately 24% and 9%, respectively

AUM from our unconsolidated affiliates decreased 19% compared to December 31, 2021, reflecting declines in both Atlanta Sosnoff and ABS.

Three Months Ended September 30, 2022 versus September 30, 2021

Investment Management Net Revenues were \$16.4 million for the three months ended September 30, 2022, compared to \$16.6 million for the three months ended September 30, 2021, a decrease of \$0.2 million, or 1%. Asset Management and Administration Fees earned from the management of Wealth Management client portfolios decreased \$1.3 million, or 8%, for the three months ended September 30, 2022 as associated AUM decreased 12%, primarily from market depreciation. Other Revenue, net, increased \$1.1 million from the three months ended September 30, 2021. Income from Equity Method Investments decreased 49% from the three months ended September 30, 2021, primarily driven by lower income earned by ABS, principally reflecting a decrease in our ownership following the sale of a portion of our interests during the first quarter of 2022. See Note 7 to our unaudited condensed consolidated financial statements for further information.

Operating Expenses were \$12.9 million for the three months ended September 30, 2022, compared to \$13.6 million for the three months ended September 30, 2021, a decrease of \$0.6 million, or 5%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$9.5 million for the three months ended September 30, 2022, compared to \$10.3 million for the three months ended September 30, 2021, a decrease of \$0.8 million, or 8%. Non-Compensation expenses, as a component of Operating Expenses, were \$3.4 million for the three months ended September 30, 2022, compared to \$3.3 million for the three months ended September 30, 2021, an increase of \$0.1 million, or 3%.

Other Expenses of \$8.6 million for the three months ended September 30, 2021 included Special Charges, Including Business Realignment Costs, related to the write-down of certain assets associated with a legacy private equity investment relationship which, consistent with our investment strategy, we decided to wind down during the third quarter of 2021.

Nine Months Ended September 30, 2022 versus September 30, 2021

Investment Management Net Revenues were \$50.6 million for the nine months ended September 30, 2022, compared to \$48.7 million for the nine months ended September 30, 2021, an increase of \$1.9 million, or 4%. Asset Management and Administration Fees earned from the management of Wealth Management client portfolios increased \$0.6 million, or 1%, for the nine months ended September 30, 2022. Other Revenue, net, increased \$1.3 million, or 211%, from the nine months ended September 30, 2021. Income from Equity Method Investments decreased 34% from the nine months ended September 30,

2021, driven by lower income earned by ABS, principally reflecting a decrease in our ownership following the sale of a portion of our interests during the first quarter of 2022. See Note 7 to our unaudited condensed consolidated financial statements for further information. This decrease was partially offset by an increase in earnings from our investment in Atalanta Sosnoff.

Operating Expenses were \$39.5 million for the nine months ended September 30, 2022, compared to \$37.8 million for the nine months ended September 30, 2021, an increase of \$1.7 million, or 4%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$29.5 million for the nine months ended September 30, 2022, compared to \$28.6 million for the nine months ended September 30, 2021, an increase of \$0.9 million, or 3%. Other Expenses of \$8.6 million for the nine months ended September 30, 2021 included Special Charges, Including Business Realignment Costs, related to the write-down of certain assets associated with a legacy private equity investment relationship which, consistent with our investment strategy, we decided to wind down during the third quarter of 2021.

Cash Flows

Our operating cash flows are primarily influenced by the timing and receipt of investment banking and investment management fees and the payment of operating expenses, including incentive compensation to our employees, interest expense on our Notes Payable and lines of credit and the payment of income taxes. Investment Banking advisory fees are generally collected within 90 days of billing. However, placement fees may be collected within 180 days of billing, with fees related to private funds capital raising and certain fees related to the private capital businesses being collected in a period exceeding one year. Commissions earned from our agency trading activities are generally received from our clearing broker within 11 days. Fees from our Wealth Management business are generally billed and collected within 90 days. We traditionally pay a substantial portion of incentive compensation during the first three months of each calendar year with respect to the prior year's results and prior years' deferred compensation. Likewise, payments to fund investments related to hedging our deferred cash compensation plans are generally funded in the first three months of each calendar year. Our investing and financing cash flows are primarily influenced by activities to invest our cash in highly liquid securities or bank certificates of deposit, deploy capital to fund investments and acquisitions, raise capital through the issuance of stock or debt, repurchase of outstanding Class A Shares, and/or noncontrolling interest in Evercore LP, as well as our other subsidiaries, payment of dividends and other periodic distributions to our stakeholders. We generally make dividend payments and other distributions on a quarterly basis. We periodically draw down on our lines of credit to balance the timing of our operating, investing and financing cash flow needs. A summary of our operating, investing and financing cash flows is as follows:

Nine Months Ended September 30, 2022. Cash, Cash Equivalents and Restricted Cash were \$482.2 million at September 30, 2022, a decrease of \$105.1 million versus Cash, Cash Equivalents and Restricted Cash of \$587.3 million at December 31, 2021. Operating activities resulted in a net inflow of \$157.2 million, primarily related to earnings, partially offset by the

payment of 2021 bonus awards and deferred cash compensation. Cash of \$418.5 million was provided by investing activities, primarily related to net proceeds from sales and maturities of investment securities and proceeds received for the sale of a portion of our interests in ABS, partially offset by net purchases of certificates of deposit and purchases of equipment and leasehold improvements. Financing activities during the period used cash of \$631.5 million, primarily for purchases of treasury stock and noncontrolling interests, the repayment of our Notes Payable and dividends and distributions to noncontrolling interest holders, partially offset by the issuance of the 2022 Private Placement Notes. Cash is also impacted due to the effect of foreign exchange rate fluctuation when translating non-U.S. currencies to U.S. Dollars.

Nine Months Ended September 30, 2021. Cash, Cash Equivalents and Restricted Cash were \$487.9 million at September 30, 2021, a decrease of \$350.3 million versus Cash, Cash Equivalents and Restricted Cash of \$838.2 million at December 31, 2020. Operating activities resulted in a net inflow of \$529.9 million, primarily related to earnings, partially offset by the payment of 2020 bonus awards and deferred cash compensation. Investing activities during the period used cash of \$208.2 million, primarily related to net purchases of investment securities and certificates of deposit and purchases of equipment and leasehold improvements, primarily related to the expansion of our headquarters in New York, partially offset by the proceeds from the redemption of the G5 debt security. Financing activities during the period used cash of \$669.7 million, primarily for purchases of treasury stock and noncontrolling interests, the repayment of our Notes Payable and dividends and distributions to noncontrolling interest holders, partially offset by the issuance of the 2021 Private Placement Notes. For further information, see Note 10 to our unaudited condensed consolidated financial statements. Cash is also impacted due to the effect of foreign exchange rate fluctuation when translating non-U.S. currencies to U.S. Dollars.

Liquidity and Capital Resources

General

Our current assets principally include Cash and Cash Equivalents, Investment Securities and Certificates of Deposit, Accounts Receivable and contract assets, included in Other Current Assets, relating to Investment Banking and Investment Management revenues. Our current liabilities principally include accrued expenses, accrued liabilities related to improvements in our leased facilities, accrued employee compensation and short-term borrowings. We traditionally have made payments for employee bonus awards and year-end distributions to partners in the first quarter of the year with respect to the prior year's results. In addition, payments in respect of deferred cash compensation arrangements and related investments are also made in the first quarter. From time to time, advances and/or commitments may also be granted to new employees at or near the date they begin employment, or to existing employees for the purpose of incentive or retention. Cash distributions related to partnership tax allocations are made to the partners of Evercore LP and certain other entities in accordance with our corporate estimated payment calendar; these payments are generally made quarterly. In addition, dividends on Class A Shares, and related distributions to partners of Evercore LP, are paid when and if declared by the Board of Directors, which is generally quarterly.

We regularly monitor our liquidity position, including cash, other significant working capital, current assets and liabilities, long-term liabilities, lease commitments and related fixed assets, principal investment commitments related to our Investment Management business, dividends on Class A Shares, partnership distributions and other capital transactions, as well as other matters relating to liquidity and compliance with regulatory requirements. Our liquidity is highly dependent on our revenue stream from our operations, principally from our Investment Banking business, which is a function of closing transactions and earning success fees, the timing and realization of which is irregular and dependent upon factors that are not subject to our control. Our revenue stream funds the payment of our expenses, including annual bonus payments, a portion of which are guaranteed, deferred compensation arrangements, interest expense on our Notes Payable, lines of credit and other financing arrangements as well as payments for income taxes. Payments made for income taxes may be reduced by deductions taken for the increase in tax basis of our investment in Evercore LP. Certain of these tax deductions, when realized, require payment under our long-term liability, Amounts Due Pursuant to Tax Receivable Agreements. We intend to fund these payments from cash and cash equivalents on hand, principally derived from cash flows from operations. These tax deductions, when realized, will result in cash otherwise required to satisfy tax obligations becoming available for other purposes. Our Management Committee meets regularly to monitor our liquidity and cash positions against our short and long-term obligations, as well as our capital requirements and commitments, including deferred compensation arrangements. The result of this review contributes to management's recommendation to the Board of Directors as to the level of quarterly dividend payments, if any.

As a financial services firm, our businesses are materially affected by conditions in the global financial markets and economic conditions throughout the world. Revenue generated by our advisory activities is related to the number and value of the transactions in which we are involved. In addition, revenue related to our equities business is driven by market volumes and institutional investor trends, such as the trend to passive investment strategies. During periods of unfavorable market or

economic conditions, which may result from the current or anticipated impact of inflation, changes in the level of interest rates, changes in the availability of financing, supply chain disruptions, an evolving regulatory environment, climate change, extreme weather events or natural disasters, the emergence or continuation of widespread health emergencies or pandemics, cyberattacks or campaigns, military conflict, including escalating military tension between Russia and Ukraine, terrorism or other geopolitical events, the number and value of M&A transactions, as well as market volumes in equities, generally decrease, and they generally increase during periods of favorable market or economic conditions. Restructuring activity generally is counter-cyclical to M&A activity. In addition, during periods of unfavorable market conditions our Investment Management business may be impacted by reduced equity valuations and generate relatively lower revenue because fees we receive, either directly or through our affiliates, typically are in part based on the market value of underlying publicly-traded securities. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame and in an amount sufficient to match any decreases in revenue relating to changes in market and economic conditions. Likewise, our liquidity may be adversely impacted by our contractual obligations, including lease obligations. Reduced equity valuations resulting from future adverse economic events and/or market conditions may impact our performance and may result in future net redemptions of AUM from our clients, which would generally result in lower revenues and cash flows. These adverse conditions could also have an impact on our goodwill impairment assessment, which is done annually, as of November 30th, or more frequently if circumstances indicate impairment may have occurred.

We are currently in a period of macroeconomic uncertainty and market volatility, including historically high inflation, supply chain constraints, rising interest rates, changes in the availability of financing, geopolitical tensions, an evolving regulatory environment and the increasing risk of a recession. These factors have led to a slowing of the pace of M&A and other advisory transaction announcements and the elongation of the timing of transaction closings, as well as suppressing the level of underwriting activity. We will continue to assess the potential ongoing impacts of the current environment, including the regular monitoring of our cash levels, liquidity, regulatory capital requirements, debt covenants and our other contractual obligations. See "Results of Operations" above for further information.

We assess our equity method investments for impairment annually, or more frequently if circumstances indicate impairment may have occurred. These circumstances could include unfavorable market conditions or the loss of key personnel of the investee.

For a further discussion of risks related to our business, refer to Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021.

Treasury Purchases

We periodically repurchase Class A Shares and/or LP Units into Treasury (including through the net settlement of equity awards) in order to offset the dilutive effect of equity awards granted as compensation (see Note 14 to our unaudited condensed consolidated financial statements for further information), or amounts in excess of that if management's review, discussed above, determines adequate cash is available. The amount of cash required for these share repurchases is a function of the mix of equity and deferred cash compensation awarded for the annual bonus awards (see further discussion on deferred compensation under *Other Commitments* below). In addition, we may from time to time, purchase noncontrolling interests in subsidiaries.

On April 27, 2021, our Board of Directors authorized (in addition to the net settlement of equity awards) the repurchase of Class A Shares and/or LP Units so that from that date forward, we were able to repurchase an aggregate of the lesser of \$750.0 million worth of Class A Shares and/or LP Units and 8.5 million Class A Shares and/or LP Units. In addition, on February 22, 2022, our Board of Directors authorized (in addition to the net settlement of equity awards) the repurchase of Class A Shares and/or LP Units so that from that date forward, we are able to repurchase an aggregate of the lesser of \$1.4 billion worth of Class A Shares and/or LP Units and 10.0 million Class A Shares and/or LP Units. Under this share repurchase program, shares may be repurchased from time to time in open market transactions, in privately-negotiated transactions or otherwise. The timing and the actual amount of shares repurchased will depend on a variety of factors, including our liquidity position, legal requirements, price, economic and market conditions and the objective to reduce the dilutive effect of equity awards granted as compensation to employees. This program may be suspended or discontinued at any time and does not have a specified expiration date. During the nine months ended September 30, 2022, we repurchased 2,907,630 Class A Shares, at an average cost per share of \$115.18, for \$334.9 million, pursuant to our repurchase program.

In addition, we periodically buy shares into treasury from our employees in order to allow them to satisfy their minimum tax requirements for share deliveries under our share equity plan. During the nine months ended September 30, 2022, we repurchased 988,136 Class A Shares, at an average cost per share of \$127.41, for \$125.9 million, primarily related to minimum tax withholding requirements of share deliveries.

The aggregate 3,895,766 Class A Shares repurchased during the nine months ended September 30, 2022 were acquired for aggregate purchase consideration of \$460.8 million, at an average cost per share of \$118.28.

Noncontrolling Interest Purchases

During the third quarter of 2022, we purchased, at fair value, an additional 0.5% of the EWM Class A Units for \$1.7 million, which was settled in cash during the three months ended September 30, 2022. This purchase resulted in a decrease to Noncontrolling Interest of \$0.1 million and a decrease to Additional-Paid-In-Capital of \$1.6 million on our Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2022.

During the first quarter of 2022, we purchased, at fair value, an additional 0.4% of the EWM Class A Units for \$1.4 million, which was settled in cash during the nine months ended September 30, 2022. This purchase resulted in a decrease to Noncontrolling Interest of \$0.1 million and a decrease to Additional-Paid-In-Capital of \$1.4 million on our Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2022.

On December 31, 2021, we purchased, at fair value, all of the outstanding Class R Interests of Private Capital Advisory L.P. from employees of the RECA business for \$54.3 million. Our consideration for this transaction included the payment of \$6.0 million of cash in 2021, \$27.7 million of cash during the first quarter of 2022, and contingent cash consideration which will be settled in early 2024. We settled \$1.1 million of the contingent consideration at fair value, which is included within Other Current Liabilities on our Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2022 and is expected to be paid during the fourth quarter of 2022. The fair value of the remaining contingent consideration is \$7.4 million and \$20.6 million as of September 30, 2022 and December 31, 2021, respectively, and is included within Other Long-term Liabilities on our Unaudited Condensed Consolidated Statement of Financial Condition. For the three and nine months ended September 30, 2022, we recognized a reversal of expense of \$8.8 million and \$12.1 million, respectively, within Other Operating Expenses on the Unaudited Condensed Consolidated Statements of Operations, related to the change in fair value of the contingent consideration. The amount of contingent consideration to be paid is dependent on the RECA business achieving certain revenue performance targets. The fair value of the contingent consideration reflects the present value of the expected payment due based on the current expectation for the business meeting the revenue performance targets. In conjunction with this transaction, we will also issue two separate payments in early 2023 and 2024, contingent on continued employment, and accordingly, will be treated as compensation expense for accounting purposes in the periods earned. These payments will also be dependent on the RECA business achieving certain revenue performance targets.

Lines of Credit

On June 24, 2016, East entered into a loan agreement with PNC for a revolving credit facility in an aggregate principal amount of up to \$30.0 million, to be used for working capital and other corporate activities. This facility is secured by East's accounts receivable and the proceeds therefrom, as well as certain assets of EGL, including certain of EGL's accounts receivable. In addition, the agreement contains certain reporting covenants, as well as certain debt covenants that prohibit East and us from incurring other indebtedness, subject to specified exceptions. We and our consolidated subsidiaries were in compliance with these covenants as of September 30, 2022. East amended this facility on October 29, 2021 such that, among

other things, the interest rate provisions were LIBOR (or an applicable benchmark replacement) plus 150 basis points and the maturity date was extended to October 28, 2023. There were no drawings under this facility at September 30, 2022.

On July 26, 2019, East entered into an additional loan agreement with PNC for a revolving credit facility in an aggregate principal amount, as amended on October 30, 2020, of up to \$30.0 million, to be used for working capital and other corporate activities. This facility is unsecured. In addition, the agreement contains certain reporting requirements and debt covenants consistent with the Existing PNC Facility. We and our consolidated subsidiaries were in compliance with these covenants as of September 30, 2022. East amended this facility on October 29, 2021 such that, among other things, the revolving credit facility has increased to an aggregate principal amount of \$55.0 million. Drawings under this facility will bear interest at LIBOR (or an applicable benchmark replacement) plus 180 basis points and the maturity date was extended to October 28, 2023. East is only permitted to borrow under this facility if there is no undrawn availability under the Existing PNC Facility and must repay indebtedness under this facility prior to repaying indebtedness under the Existing PNC Facility. There were no drawings under this facility at September 30, 2022.

On October 29, 2021, EGL entered into a subordinated revolving credit facility with PNC in an aggregate principal amount of up to \$75.0 million, to be used as needed in support of capital requirements from time to time of EGL. This facility is unsecured and is guaranteed by Evercore LP and other affiliates, pursuant to a guaranty agreement, which provides for certain reporting requirements and debt covenants consistent with the Existing PNC Facility. Drawings under this facility will bear interest at LIBOR (or an applicable benchmark replacement) plus 180 basis points and the maturity date will be October 28, 2023, unless prepayment is otherwise approved earlier by FINRA. There were no drawings under this facility at September 30, 2022. EGL amended this facility on October 31, 2022 such that, among other things, the interest rate provisions were Daily SOFR plus 191 basis points and the maturity date was extended to October 27, 2024.

In addition, EGL's clearing broker provides temporary funding for the settlement of securities transactions.

Other Commitments

We have long-term obligations for operating lease commitments, principally related to office space, which expire on various dates through 2035. See Note 8 to our unaudited condensed consolidated financial statements for anticipated current and future payments under these arrangements.

We have a long-term liability, Amounts Due Pursuant to Tax Receivable Agreements, which requires payments to certain current and former Senior Managing Directors.

Pursuant to deferred compensation and deferred consideration arrangements, we expect to make cash payments in future periods, including related to our Long-term Incentive Plans, Deferred Cash Compensation Program and other deferred compensation arrangements. Further, we make investments to hedge the economic risk of the return on deferred compensation. For further information, including timing of payments, see Notes 6 and 14 to our unaudited condensed consolidated financial statements.

Certain of our subsidiaries are regulated entities and are subject to capital requirements. For further information see Note 16 to our unaudited condensed consolidated financial statements.

We have a commitment for contingent consideration related to the purchase of the outstanding Class R Interests of Private Capital Advisory L.P. from employees of the RECA business in 2021. For further information see above and Notes 12 and 15 to our unaudited condensed consolidated financial statements.

We had total commitments (not reflected on our Unaudited Condensed Consolidated Statements of Financial Condition) relating to future capital contributions to private equity funds of \$2.7 million and \$6.1 million as of September 30, 2022 and December 31, 2021, respectively. We expect to fund these commitments with cash flows from operations. We may be required to fund these commitments at any time through June 2028, depending on the timing and level of investments by our private equity funds. See Note 15 to our unaudited condensed consolidated financial statements for further information.

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our unaudited condensed consolidated financial statements.

Our Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2022 included \$473.1 million of Cash and Cash Equivalents and \$1.3 billion of Investment Securities and Certificates of Deposit, which are generally

comprised of highly-liquid investments. For further information regarding other cash commitments and the timing of payments, refer to "General" above.

Market Risk and Credit Risk

We, in general, are not a capital-intensive organization and as such, are not subject to significant market or credit risks. Nevertheless, we have established procedures to assess both the market and credit risk, as well as specific investment risk, exchange rate risk and credit risk related to receivables.

Market and Investment Risk

We hold equity securities and invest in exchange-traded funds principally as an economic hedge against our deferred compensation program. As of September 30, 2022, the fair value of our investments with these products, based on closing prices, was \$127.3 million.

We estimate that a hypothetical 10%, 20% and 30% adverse change in the market value of the investments would have resulted in a decrease in pre-tax income of approximately \$12.7 million, \$25.5 million and \$38.2 million, respectively, for the three months ended September 30, 2022.

Private Equity Funds

Through our principal investments in private equity funds and our ability to earn carried interest from these funds, we face exposure to changes in the estimated fair value of the companies in which these funds invest. Valuations and analysis regarding our investments in Trilantic and Glisco are performed by their respective professionals, and thus we are not involved in determining the fair value for the portfolio companies of such funds.

We estimate that a hypothetical 10% adverse change in the value of the private equity funds would have resulted in a decrease in pre-tax income of approximately \$1.2 million for the three months ended September 30, 2022.

Exchange Rate Risk

We have foreign operations, through our subsidiaries and affiliates, primarily in Europe and Asia, as well as provide services to clients in other jurisdictions, which creates foreign exchange rate risk. We have not entered into any transactions to hedge our exposure to foreign exchange fluctuations in these subsidiaries through the use of derivative instruments or otherwise. An appreciation or depreciation of any of these currencies relative to the U.S. dollar would result in an adverse or beneficial impact to our financial results. A significant portion of our non-U.S. revenues and expenses have been, and will continue to be, derived from contracts denominated in foreign currencies (i.e. British Pounds sterling, Euros, Singapore dollars, among others). Historically, the value of these foreign currencies has fluctuated relative to the U.S. dollar. For the nine months ended September 30, 2022, the net impact of the fluctuation of foreign currencies recorded in Other Comprehensive Income (Loss) within the Unaudited Condensed Consolidated Statement of Comprehensive Income was (\$44.1) million. It is generally not our intention to hedge our foreign currency exposure in these subsidiaries, and we will reevaluate this policy from time to time.

Credit Risks

We maintain cash and cash equivalents, as well as certificates of deposit, with financial institutions with high credit ratings. At times, we may maintain deposits in federally insured financial institutions in excess of federally insured ("FDIC") limits or enter into sweep arrangements where banks will periodically transfer a portion of our excess cash position to a money market fund. However, we believe that we are not exposed to significant credit risk due to the financial position of the depository institutions or investment vehicles in which those deposits are held.

Accounts Receivable consists primarily of advisory fees and expense reimbursements billed to our clients. Other Assets includes long-term receivables from fees related to private funds capital raising. Receivables are reported net of any allowance for credit losses. We maintain an allowance for credit losses to provide coverage for probable losses from our customer receivables and determine the adequacy of the allowance by estimating the probability of loss based on our analysis of historical credit loss experience of our client receivables, and taking into consideration current market conditions and reasonable and supportable forecasts that affect the collectability of the reported amount. The Investment Banking and Investment Management receivables collection periods generally are within 90 days of invoice, with the exception of placement fees, which are generally collected within 180 days of invoice, and fees related to private funds capital raising and certain fees related to the private

capital businesses, which are collected in a period exceeding one year. The collection period for restructuring transaction receivables may exceed 90 days. We recorded bad debt expense of approximately \$4.9 million and \$0.02 million for the nine months ended September 30, 2022 and 2021, respectively.

As of September 30, 2022 and December 31, 2021, total receivables recorded in Accounts Receivable amounted to \$303.7 million and \$351.7 million, respectively, net of an allowance for credit losses, and total receivables recorded in Other Assets amounted to \$57.0 million and \$87.8 million, respectively.

Other Current Assets and Other Assets include arrangements in which an estimate of variable consideration has been included in the transaction price and thereby recognized as revenue that precedes the contractual due date (contract assets). As of September 30, 2022, total contract assets recorded in Other Current Assets and Other Assets amounted to \$30.1 million and \$4.0 million, respectively. As of December 31, 2021, total contract assets recorded in Other Current Assets and Other Assets amounted to \$14.1 million and \$12.9 million, respectively.

With respect to our Investment Securities portfolio, which is comprised primarily of treasury bills, exchange-traded funds and securities investments, we manage our credit risk exposure by limiting concentration risk and maintaining investment grade credit quality. As of September 30, 2022, we had Investment Securities of \$1.2 billion, of which 89% were treasury bills.

Critical Accounting Policies and Estimates

The unaudited condensed consolidated financial statements included in this report are prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions regarding future events that affect the amounts reported in our consolidated financial statements and their notes, including reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. We base these estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates. For a discussion of our critical accounting policies and estimates, refer to our Annual Report on Form 10-K for the year ended December 31, 2021.

Recently Issued Accounting Standards

For a discussion of other recently issued accounting standards and their impact or potential impact on our consolidated financial statements, see Note 3 to our unaudited condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See "Management's Discussion and Analysis of Financial Condition and Results of Operations – Market Risk and Credit Risk." We do not believe we face any material interest rate risk, foreign currency exchange risk, equity price risk or other market risk except as disclosed in Item 2 " – Market Risk and Credit Risk" above.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this report. Based upon that evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective to accomplish their objectives at the reasonable assurance level.

Changes in Internal Controls over Financial Reporting

We have not made any changes during the three months ended September 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act).

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the normal course of business, from time to time, the Company and its affiliates are involved in judicial or regulatory proceedings, arbitration or mediation concerning matters arising in connection with the conduct of its businesses, including contractual and employment matters. In addition, United Kingdom, German, Hong Kong, Singapore, Canadian, Dubai and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer, investment advisor, or its directors, officers or employees. In view of the inherent difficulty of determining whether any loss in connection with such matters is probable and whether the amount of such loss can be reasonably estimated, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot estimate the amount of such loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that it is not currently party to any material pending proceedings, individually or in the aggregate, the resolution of which would have a material effect on the Company. Provisions for losses are established in accordance with ASC 450 when warranted. Once established, such provisions are adjusted when there is more information available or when an event occurs requiring a change.

Under this share repurchase program, shares may be repurchased from time to time in open market transactions, in privately-negotiated transactions or otherwise.
